

ALEX HAMILTON

REGISTERED OSTEOPATH

Desborough and Rothwell

D.K.S. Pest control
147 Union Street,
Desborough,
Kettering,
Northants,

To whom it may concern:

I was first introduced to Daniel in 2001 by an osteopathic college of mine who told me a story of the removal of a rodent from her address in Brixworth. She remembered the benefit of the dog he brought with him and the ability of it to flush out the rodent.

We have had Daniel come to our home address for various complaints, in particular a rat that had gained entrance via some out buildings. It was then I was introduced to "Dodi" who had the ability to determine through scent the entry point and nest of the intruder. Needless to say, Daniel and his dog solved the problem promptly.

I have recommended Daniel to many of my patients and would not hesitate to do so in the future. I have always found him prompt, efficient and "Dodi" gives you a sense of ease at her ability to determine the source of the complaint and rescan your property on completion.

Please don't hesitate to contact me with any queries regarding this letter.

Yours Sincerely

Alex Hamilton
